

SpO₂ PERFORMANCE – SENSORS

When choosing a sensor, you consider many variables, including patient size (neonatal, infant, pediatric or adult), diagnosis (injury, illness or infection), patient state (well or poorly perfused, ambulatory or sedentary), and location (emergency, surgery, intensive care or general ward). Concerns about cross-contamination and cost will also impact sensor choice.

Durable Philips reusable and single patient use SpO₂ sensors can help you deliver quality care to your patients while at the same time simplifying

healthcare delivery and reducing cost. Philips offers a wide variety of reusable and single patient use sensors for every area of the hospital – the ICU, CCU, NICU, OR, ER, medical/surgical and general wards. Their rugged, comfortable sensors come in sizes to fit a broad range of patients, from neonates to large adults.

BENEFITS:

- Outstanding durability
- Drive down the cost of pulse oximetry
- Designed with the patient's comfort in mind

THE PHILIPS FAMILY OF SENSORS – SENSORS THAT LAST

Reusable

SpO₂ Glove Sensor
#73-989803144371
(adult sensor)

SpO₂ Glove Sensor
#73-989803205871
(adult/pediatric sensor)

SpO₂ Wrap Sensor
#73-989803205881
(neonatal sensor)

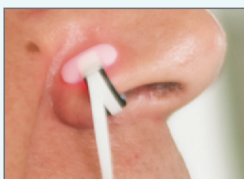

SpO₂ Ear Clip Sensor
#73-989803205891
(adult/pediatric sensor)

SpO₂ Clip Sensor with
9.8 ft Cable Length
#73-989803205901
(adult sensor)

Single Patient Use

Nasal Alar FAST SpO₂ Sensor
#73-989803205381
(adult/pediatric alar sensor)

Single-Patient,
SpO₂ Clip Sensor
#73-989803205831
(adult/pediatric sensor)

Single-Patient,
SpO₂ Wrap Sensor
#73-989803205841
(infant sensor)

Single-Patient,
SpO₂ Wrap Sensor
#73-989803205851
(neonatal/infant/adult sensor)

Single-Patient, Adhesive-Free,
SpO₂ Wrap Sensor
#73-989803205861
(neonatal/infant/
adult non-adhesive sensor)
